

CONSOLIDATED GROUPS

Developmental cancer

Neuroblastoma · Glioma · Ewing's sarcoma · Leukaemia and non-malignant blood disorders · Retinoblastoma · Biobank and molecular diagnosis · Lymphoma

Neuronal development and metabolic disorders

PKU and other amino acid disorders · Mitochondrial energy metabolism and ataxias · Congenital muscular dystrophies · Other neurological disorders · CNS-expressed neurometabolic disorders

Etiopathogeny and treatment of severe mental disorders

Clinical, cognitive and psychosocial bases of severe mental disorders · Epidemiology · Mental health interventions · Basic processes of perception, attention and action · Molecular psychiatry · Mental disorders in childhood and adolescence

EMERGING GROUPS

Influence of the environment on the welfare of children and adolescents

Clinical and epidemiological research on high prevalence disorders

Clinical and epidemiological research on high prevalence disorders · Chronic degenerative neurological disorders · Emerging respiratory disorder processes · Chronic heart disorders · Urgent care processes and disorders · Non-melanoma skin carcinoma · Severe infectious processes

Adult disorders of prenatal or early postnatal origin

Childhood diabetes · Physiological and pathological conditions in newborns and consequences for evolution monitoring · Study of congenital anomalies and their surgical treatment · Foetal medicine: foetal welfare markers · Intrauterine growth restriction and alterations · Ovary transplantation

Infectious diseases and systemic inflammatory response in paediatrics

Molecular epidemiological surveillance of vaccine-preventable diseases · HIV · Systemic inflammatory response in children and adolescents

Research and innovation in surgery

Functional pathology of the digestive system and abdominal wall · Study of disorders of the hepatobiliary system, the endocrine system and the breast · Locomotor system disorders · Urogynaecological and pelvic floor surgery

Healthcare technologies and results in primary care and mental health (PRISMA)

GROUPS UNDER FORMATION

Research group on nursing, education and society (GIEES)

Social action · Identifying traits · Innovation in teaching · Healthcare methodology

130 national competitive projects
11 international competitive projects

38 non-competitive projects

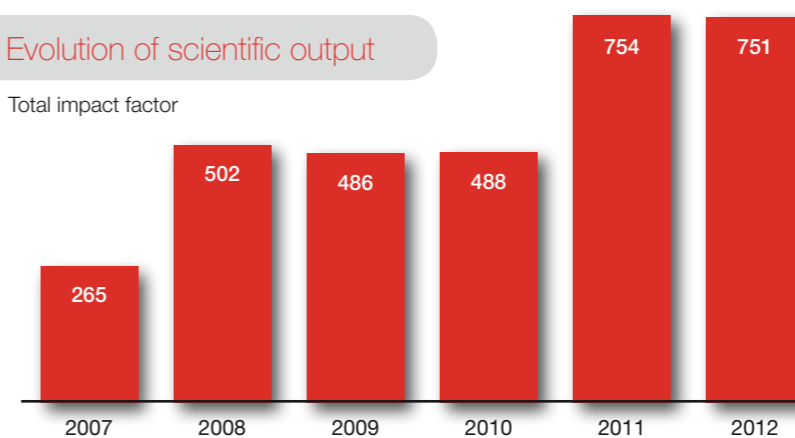

70 clinical trials

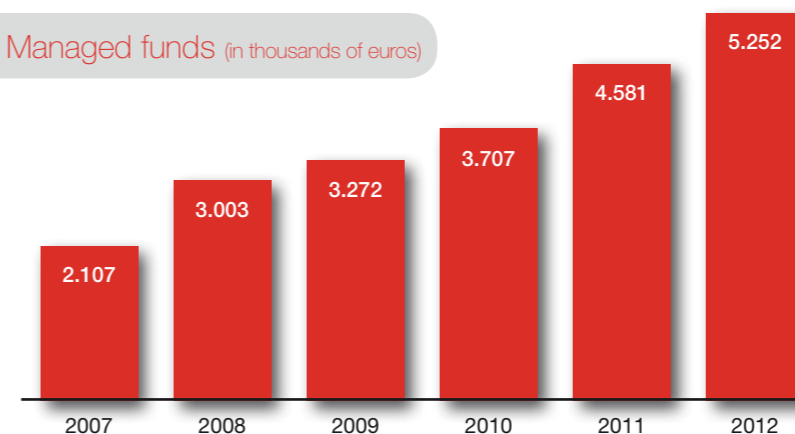

52 observational studies

Evolution of scientific output

Total impact factor

Managed funds (in thousands of euros)

60% private funds

40% public funds

12 patents between 2007 and 2012
